Akios reels are highly engineered precision tools utilising the very best materials in creating robust finely tuned corrosion resistant fishing reels for the world market of beach and boat fishing. The Japanese and Taiwanese engineers have created very smooth casting reels which will outperform the competition on the beach straight out of the box! With high torque boat reels with new larger diameter spool shafts giving more winding power and the ability to fight fish with confidence !
"Great casting reels with the ability to withsatnd TOUGH"

Millionaire® M7HTMAGST Surf Reels

Long Distance Surfcasting Reels With proven, record-class performance in European casting competition, there are simply no finer off-the-shelf reels for casting maximum distance in the surf. Both are built in Daiwa's Japanese factory to ensure maximum quality control. To control the high-performance spools of these reels, capable of reaching speeds up to 30,000 rpm, Magforce Z (called Magnofuge in Europe) applies smooth magnetic braking as the spool approaches maximum speed to prevent over run, backing off as the spool slows. The result is the spool starts and builds speed faster, then keeps spinning longer. And the amount of control is fully adjustable to meet varying conditions and your particular

M7HTMAGGST \$499.95

M7HTMAG \$299.95

We are a full online stockist of Daiwa high quality Reels
